Summary — Results-driven Software Engineer with 4+ years in full-stack web development, specializing in PHP, JavaScript, and modern frameworks. Experienced in designing and maintaining scalable web applications using Angular, Node.js, and Laravel. Skilled in RESTful APIs, MySQL, and cloud technologies, with a strong focus on debugging and optimizing performance. Proficient in Agile development and cross-functional collaboration to deliver innovative software solutions.

Skills

Languages:	PHP, JavaScript, SQL, HTML, CSS	**Version Control:**	Git, GitHub, GitLab
Frameworks:	Angular, Node.js, Laravel, Yii2	**Software & Tools:**	Docker, Jira, Visual Studio Code, Postman
Databases:	MySQL, MongoDB	**Other Skills:**	REST APIs, AJAX, Testing, Agile, Debugging, Optimization

Projects

OPAL(Oman Petroleum Alliance) & RABT   usp.opaloman.om

– Developed key modules for OPAL & RABT, handling full-stack development with Angular and Yii2 to optimize user experience and system performance.
– Built responsive Angular UI for seamless user interaction
– Developed and optimized Yii2 backend with efficient database queries
– Ensured smooth integration between front-end and backend

Jump Admin Panel

– Architected and led the development of a scalable admin panel with role-based dashboards for Super Admin and Sponsor Admin.
– Developed and optimized RESTful APIs in Node.js, improving performance and security.
– Implemented RBAC, ensuring granular access control and secure user management.
– Integrated Socket.IO for dynamic event scheduling and real-time updates.
– Enhanced a responsive, high-performance UI with Angular & NG Bootstrap, enhancing UX across devices.

Kaycha Labs   kaychalabs.com

– Expanded and maintained the Kaycha Labs project, a US-based hemp and cannabis testing automation platform focused on quality control and accuracy.
– Managed 10+ portals, ensuring seamless data integration with government systems for product licensing approvals based on test results.
– Implemented SSO authentication and AWS S3 bucket for secure data storage and retrieval.
– Managed ERP and ATS products to ensure alignment with business objectives.

ProMIS.ONE – Online ERP Software Solution   promis.one

– Developed and maintained a scalable ERP platform, streamlining business operations with integrated solutions for finance, HR, CRM, and rewards management.
– Led back-end enhancements to improve system efficiency, security, and data integrity.
– Conducted code reviews, mentored team members, and ensured adherence to best development practices.
– Collaborated with cross-functional teams to implement new features, optimize performance, and resolve critical issues.

Education

Chandigarh University   2016 – 2020
B.E. Computer Science
64 CGPA

G.S.S School Darlaghat   2015 – 2016
+2
61%

Experience

Hashstudioz Technologies   **Dec 2022 – Present**
Software Engineer

– Developed and improved full-stack solutions using **Angular, Yii2, and Node.js**, enhancing system performance, security, and user experience while ensuring seamless frontend-backend integration.
– Designed and implemented **RESTful APIs in Node.js**, optimized **Yii2** database queries, and integrated **Socket.IO** for real-time updates and event scheduling.
– Enforced **Role-Based Access Control (RBAC)** for secure user management, developed a scalable admin panel with role-based dashboards and ensured granular access control.
– Engineered a responsive, high-performance user UI using Angular and NG Bootstrap, ensuring cross-device compatibility and enhancing user engagement.
– Managed client interactions, collected requirements, and led a team to successfully deliver projects while ensuring high-quality standards and timely execution.

ToXSL Technologies   **Oct 2021 – Dec 2022**
Software Developer

– Led the design and development of scalable web applications using **Angular, Yii2, and RESTful APIs**, enhancing performance and user experience.
– Optimized database architecture and API performance, reducing response times by **30%** and improving system scalability.
– Implemented **SSO authentication** for seamless and secure user login across multiple platforms.
– Integrated **AWS S3** to enhance data storage efficiency, ensuring reliable and scalable asset management.
– Conducted **code reviews, mentorship, and best-practice implementation**, improving code quality and development efficiency.
– Collaborated with UI/UX designers, product managers, and stakeholders to align technical solutions with business goals.

Oriental Outsourcing PVT. Ltd   **Jan 2021 – Sep 2021**
Associate Software Developer

– Collaborated with cross-functional teams to design, develop, and deploy scalable software solutions using **PHP** and **JavaScript**.
– Developed clean, efficient, and well-documented web applications that **enhanced** performance and maintainability.
– Assisted in database design and streamlined queries to improve scalability and data management.
– Ensured code quality and best practices through debugging, testing, and version control.
