Summary

Highly proficient Software Engineer with 4+ years of full-stack development experience, specializing in React.js, Angular, and Node.js. Proven track record in improving application performance by 30%, reducing API response times by 20%, and improving system scalability. Skilled in designing and integrating RESTful APIs with MySQL and cloud technologies. Thrives in Agile environments, delivering innovative solutions that optimize user experience and operational efficiency.

Skills

Languages :	TypeScript, JavaScript, PHP	**Backend :**	Node.js, Yii2, Laravel
Frontend :	Angular, React, Bootstrap, Tailwind	**Databases :**	MySQL, MongoDB
DevOps & Tools :	Docker, Jira, VSCode, Postman, AWS Git, GitHub, GitLab, EC2, CI/CD	**Other Skills :**	REST APIs, Agile, Jest Sonarqube, Debugging

Work Experience

Hashstudioz Technologies   Dec 2022 - Present
Software Engineer   *Mohali, Punjab*

- Engineered **end-to-end applications** utilizing **Angular, Node.js, and React**, enhancing efficiency and security.
- Designed and deployed **RESTful APIs** and **Socket.IO**, enabling **real-time data synchronization**.
- Developed **role-based dashboards** with **RBAC**, ensuring structured access management and system integrity.

ToXSL Technologies   Oct 2021 - Dec 2022
Software Developer   *Mohali, Punjab*

- Created **high-performance** and **ERP applications** using **Angular,Yii2, and REST APIs** elevating operational effectiveness.
- Enhanced **query optimization**, cutting **response times by 30%**, leading to improved responsiveness.
- Integrated **AWS S3** and **SSO authentication**, strengthening data security and seamless user experience.

Oriental Outsourcing Pvt. Ltd   Jan 2021 - Sep 2021
Associate Software Developer   *Chandigarh, India*

- Built and refined **web-based solutions** leveraging **PHP and JavaScript**, increasing functionality.
- Streamlined **database transactions**, optimizing system scalability and efficiency.
- Partnered with cross-functional teams to **architect, implement, and deploy scalable platforms**.

Projects

OPAL (Oman Petroleum Alliance) & RABT | *Angular, Yii2*   usp.opaloman.om

- Designed **core system features** using **advanced algorithms**, reducing **server workload by 20%**.
- Constructed a **fully responsive Angular interface**, ensuring seamless user interactions.
- Enhanced **backend efficiency** through **optimized database queries**, boosting performance by **20%**.

Jump Admin Panel | *Node.js, Angular, MySQL, Socket.IO*

- Developed a **feature-rich admin system** with **customized dashboards**, enabling efficient governance.
- Integrated **RBAC and JWT-based authentication**, reinforcing data security and controlled accessibility.
- Established **real-time scheduling mechanisms** with **Socket.IO**, improving engagement.

Kaycha Labs | *Angular, AWS S3, MySQL*   kaychalabs.com

- Spearheaded development of a **regulated cannabis testing platform**, powering **10+ portals**.
- Implemented **SSO-based authentication** and **AWS S3**, ensuring secure storage and access.
- Refined **data retrieval processes**, guaranteeing **compliance with industry regulations**.

Education

Chandigarh University   Aug 2016 - Jul 2020
Bachelor of Technology in Computer Science, ***Percentage: 64%***   *Mohali, Punjab*
